Professional Experience

2023 - Present

Software Developer @ Slurp Noodles Ltd ↗
Worldwide - Remote

Summary:
- Customise and maintain an in-house Point-of-Sale (POS) system, ensuring seamless integration with accounting and CRM platforms.
- Optimise system performance and scalability while ensuring compliance with data protection and security standards.
- Provide staff training, technical support, and comprehensive documentation to enhance system usability.
- Develop automated reporting tools to deliver actionable business insights.

2009 - Present

Software Developer & Consultant @ The Kilbot Factory ↗
Worldwide - Remote

Summary:
- Operate as a sole trader, delivering bespoke web development, hosting, and IT solutions to a global clientele under The Kilbot Factory brand.
- Develop and maintain WooCommerce POS, a highly-rated WordPress plugin adopted by thousands of businesses worldwide for streamlined WooCommerce point-of-sale operations.
- Create custom e-commerce solutions, including tailored WordPress/WooCommerce plugins, API integrations, and specialised tools for diverse industries.
- Collaborate with clients to design and deliver scalable, high-performance web applications and workflow optimizations.

Key Clients:
- **F Coffee Ltd ↗**
  London, UK
  Developed custom POS and plugin features for their retail operations.
- **Underdog Film Lab ↗**
  Oakland, California
  Built specialised tools for inventory and workflow management.
- **NattProp Short Stays ↗**
  UK & Australia
  Managed hosting and automation to optimise online operations.

2011 - 2014

Founder & Product Manager @ Urban Locavore ↗
Perth, Western Australia - On-site

Summary:
- Founded and operated a subscription-based food delivery service, curating high-quality products from Western Australian farmers' markets.
- Designed and maintained the company's WooCommerce-powered platform, which facilitated seamless ordering and subscription management.
- Created a bespoke POS system to optimize inventory and logistics, later adapted into WooCommerce POS.

2008 - 2009

Software Developer @ BioCenturion
San Francisco, California - Remote

Summary:
- Worked with an Australian startup to develop a glucose tracking application for the first-generation iPhone.
- Led front-end and back-end development using cutting-edge tools for mobile health monitoring, though the project was ultimately discontinued.

2003 - 2008

Freelance Web Developer @ The Kilbot Factory
Melbourne, Victoria - On-site

Summary:
- Delivered custom websites, hosting solutions, and IT consulting services for businesses across diverse industries.

Key Clients:
